

3 city pupils eye Oz world maths finals

TIMES NEWS NETWORK

Mumbai: Three students from Aditya Birla World Academy, Tardeo, will participate in the World Mathematics Championships finals in Melbourne in June this year. The students got a direct entry to the finals after a win at a mathematics competition in South Korea recently.

The three class IX students, Aditya Jain, Aryan Dangi and Ojasvi Tiwari, won medals at the North East Asian Mathematics Competition (NEAMC) held at Dulwich College, Seoul earlier this month. In the competition, the students engage, discuss, collaborate and challenge themselves through the medium of mathematics.

“The participants also had to explore a range of concepts through different frameworks. They had the opportunity to challenge themselves in ninerounds,” said Prodipta Hore, head of faculty, mathematics, at the school.

The competition is the qualifying round for the World Mathematics Championships finals to be hosted by University of Melbourne, Australia, in June 2018. **TNN**
