

City school bags prestigious award

Felicitating members of the school

The eINDIA Education Awards 2013, one of the country's most prestigious awards in the Education sector, felicitates and recognises achievers and innovators who have significantly contributed towards the growth and development of education in the country. The Aditya Birla World Academy (ABWA) project has been declared as winner for eINDIA Education Awards 2013. There were six broad categories to cover a whole gamut of initiatives taken by schools. All schools across India that have contributed towards the growth of education in the country with their innovative initiatives were invited to send their nominations for the award ceremony. ABWA sent in their nomination for the use of ICT (Information and Communi-

cation Technology) in school management, and titled the project 'Towards a Go Green School'.

ABWA's web based interface is a one-stop-portal that allows parents to view real-time information about each child's school progress. A variety of information, including electronic archival of academic reports, academic grades, attendance, assignments, teacher comments, school announcements, photos, on-line fee payments and paper-less online admission process and fee receipts are displayed. This portal is an independent platform and can be accessed via any device connected to the internet.

This initiative has enabled the school to successfully progress in their objective 'Towards a Go Green School' with enthusiasm.
